**EFFECTIVE: IMMEDIATELY UPON APPROVAL BY ALL PARTIES**

**Justification:** The reason for this amendment is to add 2 field parameters to data reporting to TCEQ: parameter #89978 – Primary contact recreation activity -- number of people actually observed recreating (0-10 or >10) and #89979 (1 = Observed or 0 = Not observed) – Evidence left behind of primary contact recreation, e.g. rope swings, designated swimming beaches, swim suits, etc. This information will be reported starting with the first sampling date after this amendment has been finalized.

**Detail of Changes:** List each section in which a change is proposed and provide a description of the change(s) in the table below.

**Table A7.2 Measurement Performance Specifications for SRBA**
